

## The 9th Awaji International Forum on Infection and Immunity

Sep. 8(Tue) ~ 11(Fri), 2009

Venue: Awaji Yumebutai International Conference Center

Chair: Hitoshi Kikutani

The typhoon had just gone away and we enjoyed beautiful sunny days during the meeting. Oral presenters are 13 invited speakers from abroad, 14 invited speakers from Japan, and 16 oral posters. All presentations were in high quality and the meeting was livened up by active discussions.

There were 252 participants from 13 countries and were 124 poster presentations. We invited 10 young scientists from Asian developing countries. Except for these, we were so delighted to find that there were 10 general participants from abroad. 79 young scientists had attended the training course. We appreciate for your coming all the way to Japan. Please come again to join the meeting!
