

The 11th Awaji International Forum on Infection and Immunity.

Date: From Sep. 11th to Sep. 14th in 2012

Place: Awaji Yumebutai International Conference Center

Chair: Yoshiharu Matsuura

(The Research Institute for Microbial Diseases, Osaka University)

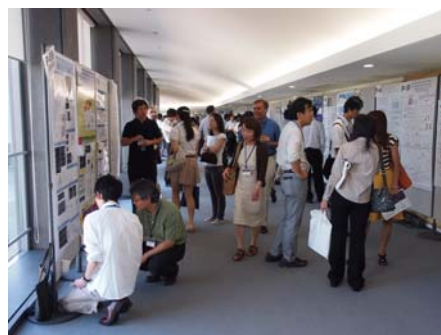

Organized by: Research Institute for Microbial Diseases, Osaka University
The Institute of Medical Science, The University of Tokyo
International Research Center for Infectious Diseases
Osaka University Global COE Program "Frontier Biomedical Science Underlying
Organelle Network Biology"
The University of Tokyo Global COE Program "Center of Education and Research
for the Advanced Genome-Based Medicine: For personalized medicine and the control
of worldwide infectious diseases"
IMSUT Joint Research Project
The Research Foundation for Microbial Diseases of Osaka University

Supported by: The Federation of Pharmaceutical Manufacturers' Associations of JAPAN
Hyogo International Association

The 11th Awaji International Forum on Infection and Immunity (AIFII) was held under sunny and warm weather. We had 13 international invited speakers and 14 national speakers. All invited speaker were scientific leaders in Virology, Bacteriology, Parasitology or Immunity. All attendance could learn each field from basic to the latest research data. In the poster sessions, many young scientists presented their data and had many discussions. We also enjoyed attending at Welcome or BBQ party and communicated with each other through alcohols. We deeply appreciate all attendees to join the meeting and also hope we can meet again in 12th AIFII.

(written by Toru Okamoto, Dept. of Molecular Virology, The Research Inst. for Microbial Diseases, Osaka Univ.)
